I also have worked in Assisted living settings.

Skills and Qualifications:

Fluent in Spanish and Medical Translation

Certified and Trained in CPR and First Aid

Phlebotomy and I.V. solutions within my scope of practice

Proficient in electronic charting

Employment:

2010 - -Present - Bronx Care Health Hospital 1650 Grand Concourse Bronx NY 10457

LPN – At the present time, I am working in the Ophthalmology Consult department. We receive Inpatients, Emergency room patients, Walk in clients all with emergency situations. Some are follow up appointments. In this setting we see preterm babies, pediatrics and all ages. The LPN documents the intake visit with the patients. Performs vital signs on their eyes, and prepares any medicating eye drops, that their physician may order at time of visit. I also work in the Glucoma, Retina and Cornea outpatient clinics.

LPN – HIV department Duties consisted of managing a safe out patient medication clinic for patient's infected with HIV. Patient's came on a weekly, bi-weekly or monthly basis to pick up their antiviral regimens prescribed by their physicians. Patients are educated about the importance of medication adherence, side effects and labs are also reviewed and discussed. The antivirals were delivered in pre-pour pill boxes or in the original medication packaging from

various pharmacies. The medication was kept in a well secured temperature location, with detailed logs of every pill received and patients signed for their medications. I worked very closely with all prescribing physicians and pharmacies.

2/2009 – 10/2010

Beth Isreal Methadone Maintenance Program 429 23rd Street New York, NY

LPN – Worked closely with patient, that needed assistance with abstaining from illicit drug use.

The patient came in daily, to the outpatient methadone clinic. In this setting the patient receives his methadone medicine an individualized dosage from a licensed person. All Methadone is dispensed from a sophisticated calibrated unit and diluted with water by the nurse. All methadone not prepared for immediate use was locked up in vaults.

Each patient was under strict supervision of a Doctor and Psychiatrist. All patients received physicals, and had lab work done according to their individual case.

With consent forms, information was provided to Jails for our patients, that encountered incarceration to avoid our patients from becoming ill, and other medical risk. All medicating orders were confirmed.

9/1999 – 12/2008

Kaiser Permanente – 710 Lawrence Expressway, Santa Clara California 95051

Charge LPN – Duties consisted floating to outpatient clinics:

Urgent Care, Minor Surgery, Ambulatory Surgery, Pediatrics/Adult inoculation clinics along with Travel Medicine. I also assisted in the Emergency room preparing Normal Saline lines for arriving ambulances. Medication preparations P.O. and IM injections for pain. Prepared nebulizer treatment for the Asthmatic patients, assisted with wound care dressing and discharge planning with follow up appointments.

9/1990 – 6/1999

Peekskill Area Health Center – 1055 Main Street, Peekskill Westchester County 10566

I started at Peekskill Health Center as a Medical Assistant and transitioned to an LPN in 1997.

My responsibilities consisted of taking vital signs, administering vaccines to adult and pediatric patients. Prepared nebulizer treatments, began working with the HIV population, education was supported thru the Health Center to become a pre and post HIV Counselor.

At the Peekskill Health Center, I learned how to triage calls within my scope of practice, assisted with discharging plans and booking follow up appointment.
