SUMMARY

Results-driven React Native Developer with 5+ Years of experience designing and implementing mobile applications for iOS and Android platforms. Proficient in leveraging React Native framework to build cross-platform apps with a focus on performance, usability, and code reusability. Adept at collaborating with cross-functional teams to deliver high-quality software solutions.

SKILLS

- Mobile Applications
- React Native & React.js
- Android & iOS
- JavaScript & TypeScript
- React Native Developer
- Redux & MobX
- Version Control (Git)

- Firebase Integration
- Agile Methodologies
- Security & Compliance
- BDD, ATDD & TDD
- Java
- User Interface & User Experience
- SQL Server and Relational Databases

EXPERIENCE

Sr. React Native Developer, 08/2023 - Current
Innoclique Cognitive Technologies, Hyderabad
- Collaborated withclients to develop high-quality mobile and web applications using React Native and React.js.
- Created responsive and user-friendly web applications with a focus on optimal performance and smooth user interactions.
- Working on existing projects and providing guidance to juniors/interns to ensure timely delivery of high-quality products.
- Optimized frontend architecture and documentation.
- Developed user-facing features and reusable components collaboratively with remote and in-office teams.
- Worked with design tools such as Adobe XD, Figma, Adobe Illustrator Diagnosed, troubleshooted, and debugged issues, with a particular focus on banking and financial transactions.
- Implemented websocket communication for real-time updates

Senior Application Developer - React Native & Reactjs, 12/2022 - 12/2023
Tomsher Technologies, Dubai
- Worked as a Full Stack Developer on multiple projects, utilizing React Native for mobile development and Node.js/Express.js for server-side programming
- Created responsive and user-friendly Mobile Applications for e-commerce, financial services, and fintech solutions, incorporating payment gateway integrations for secure transactions

- Write clean and efficient code using Visual Source Code, and React Native Debugger, and utilize SDKs for efficient App Development
- Implement features for transactions, account management, and security
- Optimized front-end architecture for speed and scalability, ensuring proper documentation
- Worked with modern front-end build pipelines, Agile delivery, DevOps, and microservices
- Utilized native build tools, Android Studio, and Xcode for app deployment.

Application Developer - React Native & Reactjs, 06/2021 - 10/2022
Easy Entrance Pvt Ltd, Kerala, India
- Proficient in JavaScript/Typescript, including ES6+ syntax, and Agile methodologies
- Worked on existing projects and provided guidance to juniors/interns to ensure timely delivery of high-quality products, including troubleshooting and debugging complex issues
- Ensured pixel-perfect and smooth UIs across mobile platforms, particularly for ecommerce and banking features
- Integrated Firebase for push notification, cloud messaging and seamless data transfer between frontend and backend
- Implemented database design and development using SQL Server, contributing to seamless data management
- Integrated payment gateway solutions to ensure a seamless and secure financial data handling experience for users
- Implemented version control using Git, Jira/Confluence, Mercurial or SVN, and continuous integration/continuous deployment with Kubernetes, GitHub, Jenkins, GCP, and AWS
- Upheld the highest security standards and compliance regulations in the banking sector.

React Native Developer, 11/2020 - 03/2021
Netstager Technologies Pvt Ltd, Kerala, India
- Developed and published mobile applications on Android and iOS platforms using React Native
- Utilized RESTful APIs, Web API, JSON, GraphQL, and Axios for server communication
- Worked with Redux and MobX for state management, incorporating code reviews and testing best practices like Enzyme, Jest, Mocha
- Collaborated with UI/UX designers for engaging user interfaces and secure financial data handling
- Proficient in React workflows and build tools such as Gradle, NPM, XCode, React Native CLI, NPX, and Yarn
- Collaborated with security teams for code reviews and vulnerability assessments
- Integrated third-party payment gateway APIs (e.g., PayPal, Stripe, or local payment gateways) to offer a wide range of payment options to users.

Junior Application Developer - React Native, Reactjs & Wordpress, 10/2018 - 09/2020
Okutics, Kerala, India
- Designed and built website front-ends using React.js
- Generated WordPress themes and plugins
- Developed mobile applications using React Native
- Conducted website performance tests, troubleshooting content issues, and working on e-commerce websites
- Worked with cross-functional team to define and write code for new features
- Added new products and updated existing e-commerce websites
- Collaborate effectively with team members and stakeholders
- Took initiative in learning React Native and successfully developed various features under minimal supervision

- Stay up-to-date with the latest industry trends and advancements in mobile development and web development technologies
- Maintained documentation of payment gateway integrations and payment-related functionalities for future reference and team knowledge sharing.

ACCOMPLISHMENTS

- Hongkong University Of Science & Technology - Front-End Web Development with React
- Hongkong University Of Science & Technology - Server-side Development with NodeJS, Express and MongoDB
- Hongkong University Of Science & Technology - Multiplatform Mobile App Development with React Native
- Hongkong University Of Science & Technology - Front-End Web UI Frameworks and Tools: Bootstrap 4
- University of Michigan - Programming for Everybody

PROFILE - EDUCATION

- Master of Computer Application, Chandigarh University, 2022
- Bachelor of Science - Computer Science, University of Calicut, 2019

LANGUAGES

- English
- Malayalam
- Hindi
